ко(н

Caution!

Each resident needs a PIN (personal identification number) to open the parcel boxes or to adjust the settings.

The factory default code (1234) should be replaced as soon as possible with a new PIN by following the instructions in the Settings section on page 9.

Brief description

The **Information terminal PTPAS** is part of the parcel box system from Ernst Schweizer AG and it is used to **control and display the parcel box functions**:

- Code-protected parcels deposited upon delivery or for collection (pick@home)
- informing the resident via SMS/e-mail about a received parcel (network connection required)
- use a parcel box as a private compartment (permanently assigned parcel box, eg. companies, administration or housekeeper)

Overview of the device PTPAS

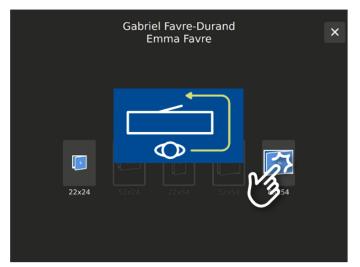

Deposit the parcel (by the courier)

- Find the resident: tap on the search field and type the resident's name or scroll down the list of names
- next to the residents name press on the "parcel" button

- tap on a free parcel box of a suitable size
- · the selected parcel box will open

On free-standing letterbox systems equipped with parcel boxes on both sides, the courier will be shown when selecting a parcel box whether this is on the back.

- place the parcel inside
- push the parcel box door shut again
- the "house" button on the terminal now shows a green dot saying the box is occupied

Remove the parcel (by the resident with a PIN)

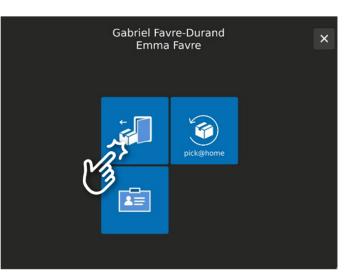

- Find your name: tap on the search field and type your name or scroll down the list of names
- a green dot on the "house" button means that the parcel box is occupied
- tap on the "house" button

- Enter the PIN (page 12)
- confirm with 🗸 or
- cancel with X

- tap on the "parcel" button to open the occupied parcel box
- · remove the parcel from inside
- push the parcel box door shut again

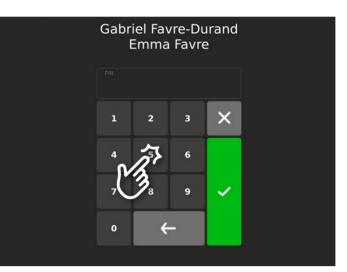

pick@home, deposit the parcel (by the resident)

First print off the shipment papers on <u>post.ch</u> for a pick@home order and attach to the parcel according to the postal instructions. Keep the consignment number.

- Find your name: tap on the search field and type your name or scroll down the list of names
- tap on the "house" button

- Enter the PIN (page 12)
- confirm with 🗸 or
- cancel with X

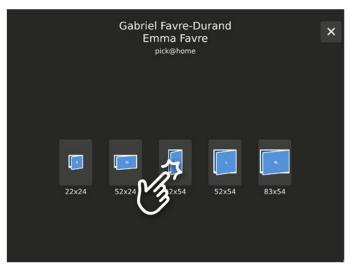

- Gabriel Favre-Durand

 Emma Favre
- tap on the "pick@home" button

pick@home, deposit the parcel (by the resident)

• tap on a free parcel box of a suitable size

- type the 4 last digits of the consignment number from the pick@home order
- a second number field appears
- type in the same 4 last digits again as confirmation and confirm with
- the selected parcel box will open

- place the parcel inside addressed for pick@home
- push the parcel box door shut again
- the "parcel" button of the resident is now marked with a yellow dot.

 <td

If the valid mobile number or e-mail address has been stored, the resident will receive a notification as soon as a parcel box has been activated under his or her name.

If the resident does not open this parcel box within 96 hours, the notification is repeated twice every 24 hours.

Another 24 hours later, the "box administrator" (caretaker) is prompted by e-mail / SMS to empty this parcel box while the resident is informed about this action.

For the **parcel notification via email / SMS**, the information terminal must be connected to the LAN and Internet and configured accordingly (Network administrator).

PIN list

PIN changed		

* PIN 4 to 6 digits

Cleaning

Clean the display and the aluminium plate with a dry or slightly damp cloth. Use a household detergent to remove stains that are more stubborn.

- Prevent any water from entering the unit!
- Do not use any sharp or abrasive cleaning agents!
